

FOR IMMEDIATE RELEASE

oneSOURCE Document Management Service achieves ISO9001:2008 registration

Salt Lake City, UT, December, 2014 —oneSOURCE Document Management Service announced today their successful completion of ISO9001:2008 registration.

Performance Review Institute Registrar (PRI) conducted an in-depth audit and examination of oneSOURCE 's Quality Management System (QMS) and reaffirms the company's strong commitment to quality.

oneSOURCE Document Management Service provides the only worldwide, online database of FDA regulated, manufacturers' validated, Instruction for Use (IFU) documents to hospitals, surgery centers and clinics.

“Earning ISO 9001:2008 registration is a verifiable example of oneSOURCE's commitment to providing unrivalled solutions and services to our customers and the medical device manufacturers we work with. ISO 9001:2008 provides a number of requirements that must be fulfilled to achieve customer satisfaction through products and services, which meet customer expectations. This includes a requirement for planned and continual improvement of the Quality Management System. Key components of the oneSOURCE quality policy require:

- Verified customer satisfaction
- Continuous improvement
- Understanding and conforming to customer requirements
- Maintaining a compliant ISO 9001:2008 Quality Assurance System

The registration represents affirmation by a third-party registrar that when purchasing a oneSOURCE subscription or participating in our manufacturers' members only program, the customer is assured of world-class quality and reliability,” said Jack Speer, President.

About Best Practice Professionals, Inc. dba oneSOURCE Document Management Service

In response to health care facilities' request for more efficient surgical instrument reprocessing, Best Practice Professionals, Inc. (BPP) developed oneSOURCEdocs.com, an electronic database that provides immediate access to manufacturers' Instructions for Use (IFU) documents. Since 2006, Best Practice Professionals, Inc. has been committed to improving reprocessing efficiencies by making it easy for hospitals, clinics and surgery centers to be compliant with manufacturers' Instruction for Use (IFU) documents. The founders have more than fifty years of combined experience in the healthcare industry. Today, BPP's oneSOURCE

document site is recognized as a leader in the field by meeting or exceeding the expectations of healthcare facilities and delivering the most complete electronic database of reprocessing documents. The only database of its kind, BPP's oneSOURCE document site provides electronic versions of thousands of manufacturers' cleaning, decontamination, sterilization and assembly/disassembly instructions for surgical instruments and equipment.
