**oneSOURCE Celebrates 10th Anniversary with Upcoming New Homepage Design and Future Database Expansion**

*After a decade of offering healthcare facilities a turnkey compliance solution, oneSOURCE modernizes look and streamlines database functionality*

SALT LAKE CITY (June 4, 2019) - [oneSOURCE](#), a leading healthcare management solution that enables facilities to stay in compliance 24/7 through its robust online platform equipped with the world's most updated IFUs (instructions for use) and PM (preventative maintenance) Service Manuals, revealed today its completely rebranded front-end materials in conjunction with its 10th anniversary. As a platform for compliance materials and education, the new and improved website and logo will present subscribers with a modern user interface and a fresh look and feel to match the company's plans for continued industry saturation across multiple verticals.

"After revolutionizing the healthcare management industry and achieving 80 percent saturation in the sterile processing market, we felt it was the perfect time to align our vision for the company with a revamped aesthetic and interface for our loyal customers," said Jack Speer, co-founder and president of oneSOURCE. "With our new website and brand elements, a forward-thinking approach to compliance is evident. We hope to engage a broader audience and improve the easy-to-use platform with even more advanced and updated components."

Through comprehensive modifications, including, but not limited to, accreditation and compliance resources, oneSOURCE database overviews, a press room and blog section with relevant content, along with sleek revisions to the logo, oneSOURCE is shifting the brand in a contemporary direction and is poised to tap into other new markets, such as Tissue & Implants and Facilities Maintenance. The decision to drive this initiative at the decade mark solidifies oneSOURCE's dedication to being an innovative force in compliance solutions by providing facilities with the required and complex documents through an easy and convenient technique.

"Our number one priority is patient safety and through these exciting new branding rollouts and platform updates we are empowered to serve our clients in the biomed, dental, manufacturing and sterile processing communities in the most efficient way possible," said Heather Thomas, CMO and executive VP of sales and marketing. "As we look into the next decade, the organization aims to work closely with the industry's leading compliance commissions and associations as well as further strengthen its relationships in the Middle East, Brazil, Europe, Australia, India and Singapore to expand its global reach and impact."

Following oneSOURCE's monumental achievement of a successful 10 years, the organization plans to unveil its highly-anticipated search screen and online database redesign encompassing Surgical & Equipment, Biomedical, Dental and Tissue & Implants. The new database redesign will feature a more simplified login area as well as improve search speed and overall functionality. More details are to be announced in the coming months. **About oneSOURCE**

[oneSOURCE](https://www.onesourcedocs.com) is a leading healthcare management solution that enables facilities to stay in compliance 24/7 through its robust online platform equipped with the world's most updated IFUs (instructions for use) and PM (preventative maintenance) Service Manuals. Since 2009 oneSOURCE has become a reliable resource for top healthcare organizations such as Mayo Clinic, Sutter Health and HCA and currently dominates the sterile processing market with more than 80 percent saturation. Approved and trusted by the Joint Commission, AAMI, CMS and AAAHC, oneSOURCE's accurate and up-to-date databases for the surgical and equipment, biomed and dental verticals, improves patient safety and reduces healthcare-acquired infections. oneSOURCE's database for tissues and implants are slated to launch in spring 2019.
