who we are

oneSOURCE

ABOUT

oneSOURCE is a leading healthcare management solution that enables facilities to stay in compliance 24/7 through its robust online platform equipped with the world's most updated IFUs (instructions for use) and PM (preventative maintenance) Service Manuals. Since 2009 oneSOURCE has become a reliable resource for top healthcare organizations such as Mayo Clinic, Sutter Health and HCA and currently dominates the sterile processing market with more than 80 percent saturation. Approved and trusted by the Joint Commission, AAMI, CMS and AAAHC, oneSOURCE's accurate and up-to-date databases for the surgical and equipment, biomed and dental verticals, improves patient safety and reduces healthcare-acquired infections. For additional information on oneSOURCE, visit onesourcedocs.com.

OUR STORY

oneSOURCE launched in 2009 to provide facilities in the medical, biomedical, dental and manufacturing sectors of the healthcare industry with certified Instructions for Use (IFUs) documents to simplify the compliance process and make maintaining accreditation turnkey. Experienced medical device industry professionals, Jack Speer, Dean Crawford and Lory Hunter launched oneSOURCE a decade ago to provide medical facilities with the appropriate resources to ensure patient safety. Their documentation software combines the efforts of multiple departments to allow facilities' staff to excel at their jobs and focus on the patient.

The rapid growth and implementation of oneSOURCE into top performing and well-recognized healthcare facilities throughout the country has propelled the documentation service's popularity. Attaining more than 80 percent of the sterile processing market, the leading healthcare management solution supports top organizations such as Mayo Clinic, New York Presbyterian Healthcare System and Sutter Health.

The oneSOURCE solution not only creates a safer hospital environment by providing easy, accurate, up-to-date access to critical information for instruments and equipment needed for patient care, it also frees up highly trained patient care staff to focus on what they do best: treating patients and creating positive patient healthcare outcomes.

leadership

oneSOURCE

Jack Speer
co-founder & president

Jack Speer, oneSOURCE co-founder and president, holds an extensive background of over 30 years in microbiology and medical solutions. Early in his career, Speer developed sterilization processes and managed microbiology laboratories with several medical device firms including Johnson & Johnson and Becton Dickinson. Following and in pursuit of continuing to improve patient safety worldwide, he established a medical device reprocessing company as well as a compliance consulting practice for medical device and pharmaceutical manufacturers. Jack lives in Salt Lake City, UT and enjoys dedicating his time to philanthropic efforts such as serving on the Board of Directors of the Salt Lake City Boys and Girls Club.

Dean Crawford
co-founder & COO

As co-founder and COO of oneSOURCE, Dean Crawford spearheads all technical operations. Prior to launching oneSOURCE, Crawford managed the development of new medical products at leading medical device companies such as Edwards (Baxter) and Becton Dickinson. In this role, he wrote Instructions for Use and related documents for medical products. Crawford is an avid pilot and enjoys spending time with his grandchildren and serving charitable organizations.

leadership

oneSOURCE

Heather Thomas
CMO, executive VP of sales &
marketing & board member

Heather Thomas' breadth of sales and marketing experience includes more than 20 years in the financial, higher education, publishing, resort and healthcare industries. Thomas joined oneSOURCE in 2008 to lead the company's strategic marketing efforts and further strengthen its sales relationships with B2B markets. As a part-time ski instructor on Vail Mountain, a competitive USTA tennis player and a lover of mountain living, Thomas enjoys spending her leisure time in the great outdoors.

Lindsay Frkovich-Nelson
VP of sales & marketing

Lindsay Frkovich-Nelson's extensive healthcare sales and client service experience is an incredible asset to the oneSOURCE organization. Frkovich-Nelson joined oneSOURCE in 2012 and is responsible for retaining its customer base and ensuring exponential growth and saturation across targeted markets. Among other functions, she lends her client management skills to support the needs of both the site's customers and operations team. Her healthcare background is combined with multimedia and post-production competencies. Frkovich-Nelson currently resides in Chicago with her husband, Adam, and their three sons.

benefits

SEARCH BY instrument catalog number, description or manufacturer name

COMPLIANCE WITH Joint Commission, Centers for Medicare and Medicaid Services (CMS), Association for the Advancement of Medical Instrumentation (AAMI) and Accreditation Association for Ambulatory Health Care requirements (AAHC)

SURVEY AND INSPECTION READY at any time with oneSOURCE's streamlined viewing capabilities and search functionality

24/7, UNLIMITED ACCESS to Manufacturer's IFU documentation and PM (preventative maintenance) Service Manuals allowing facilities the ability to maintain digital records of all necessary files throughout multiple departments at the same time

LATEST VERSION of all documents within one central area, which often times is not easily found through the manufacturers' site

The screenshot shows the oneSOURCE search interface. On the left, under "Step: 1 Select Your Database(s)", there is a list of categories: Surgical Instruments, Equipment, Tissue/Implants, Dental (selected), SD5/MSDS Sheets, Instruments/Equipment, Consumables, Implants, Biomedical, Facilities Maintenance, and Cloud Storage. Under "Step: 2 Search by catalog/model #, manufacturer, keyword", there is a search bar with "American Orthodontics" entered. Below the search bar, there is a "Keywords" field and two buttons: "SEARCH DOCS" and "CLEAR SEARCH". The results section, titled "Your E-Binder results (4)", shows a table with columns: Manufacturer, Instrument Catalog #, Description, Review Status, Review Date, Manufacturer Doc. Date, Database(s), Document Type, View Document, and Add to Favorites. The table contains two rows of results for American Orthodontics.

Manufacturer	Instrument Catalog #	Description	Review Status	Review Date	Manufacturer Doc. Date	Database(s)	Document Type	View Document	Add to Favorites
American Orthodontics	70-2011-3642-4	Model 390 Alltest Auto-Reader Steam Biological Indicator Reader/Inoculator	Revised	05/06/2019	Oct 2018	Facilities Maintenance	Safety Data Sheet	Show Document	♥

buzz

oneSOURCE

“The oneSOURCE database saved me weeks of research when I started investigating extended cycles. It was as simple as entering a catalog number and vendor.”

- Daniel Bialt,

Network Director Central Services, North Bronx Healthcare Network Jacobi Medical Bronx, New York

“With oneSOURCE document site, everyone in my department has manufacturers' instructions at their fingertips, and it's so easy to use. oneSOURCE is an excellent resource for developing policies and procedures to meet Joint Commission requirements.”

- Sam DelToro,

Manager, Sterile Processing Department Hoag Memorial Hospital Newport Beach, California

“I was impressed with oneSOURCE document site's service even before we became customers. All our questions regarding instrument reprocessing were answered, and I received in hand the manufacturers' instruction document that day. It was amazing. Now that we are customers, oneSOURCE document site has improved the efficiency of our Sterile Processing Departments with easy-to-use, unlimited access at nine different sites.”

- Catherine Williamson,

Manager Central Sterile Services Alberta Health Services Edmonton Area, Canada
